## PROFILE

Enthusiastic and driven B.Tech 2nd-year student with a strong foundation in MERN stack development, C, C++, and Data Structures & Algorithms (DSA). Passionate about building scalable web applications and exploring DevOps practices to enhance deployment and automation workflows. Eager to learn and contribute to innovative projects in software development and cloud technologies.

## WORK EXPERIENCE

### Web Development Intern, shadowFox

april 2025 - Present

- . Collaborating with the development team to design and build responsive, user-friendly web applications.
- . Working on front-end and back-end development using modern web technologies.
- . Assisting in optimizing website performance and ensuring cross-browser compatibility.
- . Contributing to real-world projects, gaining hands-on experience in the software development lifecycle.
- . Enhancing skills in problem-solving, debugging, and teamwork within a fast-paced, collaborative environment.

## EDUCATION

### Bachelor of technology

Saint Farid International School

april 2012 - march 2023

## PROJECTS

### team sync

march 2025 - april 2025

TeamSync — Real-time Team Collaboration Tool

Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js), Socket.io

- . Developed a real-time team collaboration web app with task management, in-app chat, live collaboration, and file sharing.
- . Implemented user authentication, role-based access control, and secure data handling.
- . Integrated real-time messaging and notifications using Socket.io.
- . Designed a responsive and user-friendly interface for better user experience.
- . Optimized performance for smooth and efficient real-time collaboration.

## SKILLS

- MERN
- Version Control: Git, GitHub
- API: RESTful APIs
- C
- C++
- JavaScript
- Linux Basics
- Docker (Beginner)
- CI/CD Concepts (Beginner)
- Data Structures & Algorithms (DSA)
- Problem Solving
- Responsive Web Design
- Team Collaboration
- Agile Development Practices
